9/19/16

# Advancing Health & Health Care

September 26-27, 2016 | Lincoln, Nebraska

**ENHANCE Health Network** is developing clinical integration and population health management capabilities across the region as a means of laying the foundation for creating accountable communities for health. The annual leadership conference is a mile marker event to review our successes and challenges in executing upon the strategic and operating plan, to learn from each other regarding the development of clinically integrated care, population health management capabilities, and to better understand how health care delivery systems partner with other members of the care continuum in their communities to effectively improve the health of their communities.

This conference is intended for **physicians, physician assistants, nurse practitioners, nurses, and healthcare executives representing ENHANCE member organizations, affiliate members, leadership teams, board chairs, committee members, and special guests.**

## Conference Objectives

At the conclusion of the conference, the participant should be better able to:

1. Apply key takeaways from best practice examples of bridging health care delivery to public health and other community-based members and stakeholders to make measurable improvements in overall health and health care.
2. Explain the centrality of a culture of performance improvement and how it can effect change at the community level.
3. Participate in the planning and implementation of near-term strategies and tactics.

## ON-SITE
